

## Folding Machine TF Mega M/A

### Variety is your strength

No matter what you want to fold, the TF MEGA-M rises to the challenge. The easy-to-understand symbol scale enables all sorts of tasks with sheet sizes up to A3 to be prepared quickly and easily. With this machine, you can take care of your folding jobs efficiently and reliably. To ensure optimum results, the TF MEGA-M includes adjustment options to fine-tune fold length and parallelism.

The single, letter, Z-, double parallel, gate, engineering and French fold functions enable you to complete all of the day's tasks in no time. Thanks to an output of up to 7,200 sheets/hour, even larger jobs are processed quickly.

The contact pressure on the sheets can be adjusted in order to effectively process different paper thicknesses as well. Comfort features such as the automatic switch-off function when out of paper; jam monitor and double-sheet prevention round off the range of functions.

### It delivers on its promises

The robust design enables reliable folding of all fold types including French fold. Furthermore, the extensive range of features makes work in the office and mail room convenient.

### Technical data

- **Speed:** Folds up to 7,200 sheets/hour
- **Output:** Up to approx. 120 sheets/minute
- **Paper Weight:** From 50 to 150 g/m<sup>2</sup>
- **Paper Size:** From DIN A6 to DIN A3
- **Feeder:** Large feeder with capacity for up to 500 sheets (80 g/m<sup>2</sup>)
- **Folding:** Seven different fold types, single, letter, Z-, double parallel, gate, engineering and French
- **Peripherals:** Conveyor stacker, Meter
- **Sensors:** Out-of-paper detection, Jam monitor
- **Adjustments:** Fine adjustment for fold length and parallelism, Manual and automatic buckle plate adjustment,
- **Weight:** TF MEGA-A 37Kg, TF MEGA-M 32kg
- **Dimensions in mm:** (L/H/W) 930 x 480 x 540
- **TF MEGA-A:** Preset meter, Automatically adjusted stacker
- **TF MEGA-M:** Meter, Conveyor stacker
