

Folding Machine TF Mega S

Efficient and robust

Easy to operate, robustly built and affordable – these are features of the TF MEGA-S. With this machine, you can take care of your folding jobs efficiently and reliably. The easy-to-understand symbol scale enables all sorts of tasks to be prepared quickly and easily. In addition, it offers the user the option to fine-tune fold length and parallelism to produce extremely precise results.

Completely encased buckle plates ensure quiet and safe operation. The single, letter, Z- and double parallel fold functions enables you to complete most of the day's tasks in no time. Even larger quantities are processed quickly thanks to an output of up to 6,900 sheets/hour.

The automatic switch-off function when out of paper, a large, adjustable conveyor stacker and the preset meter feature are all comfort features that have not been a given in this output class for a long time and which make the TF MEGA-S the ideal partner for your folding projects.

It delivers on its promises

The robust design enables reliable folding of the most common fold types. Furthermore, the extensive range of features makes work in the office and mail room convenient.

Technical data

- **Speed:** Folds up to 6,900 sheets/hour
- **Output:** Up to approx. 110 sheets/minute
- **Paper Weight:** From 50 to 150 g/m²
- **Paper Size:** Up to DIN A4
- **Feeder:** Large feeder with capacity for up to 200 sheets (80 g/m²)
- **Folding:** Single, letter, Z- and double parallel folds
- **Peripherals:** Conveyor stacker, Meter
- **Adjustments:** Fine adjustment for fold length and parallelism, Central fold-width adjustment
- **Weight:** 20kg
- **Dimensions in mm:** (L/H/W) 758 x 378 x 460
- Meter and Preset meter
